### CHAPTER 5 Elevating Your House

The type of foundation on which your house was originally built (basement, crawlspace, slab-on-grade, piers, posts, pilings) also can affect the elevation process This issue is discussed later in this chapter, in the section The Elevation Techniques Hazards Because so many elevation techniques are available, elevation is practical for

#### Seismic Retrofit Guide

Is my home built on a raised foundation? If your house is not built directly on a concrete slab, chances are it's built on a raised foundation This means the home was built on a system of posts, beams and "cripple walls" (cripple walls are short wood-framed walls running underneath and around the perimeter of the house)
