Air Pollution Causes Effects And

While those effects emerge from long-term exposure, air pollution can also cause short-term problems such as sneezing and coughing, eye irritation, headaches, and dizziness.

Air Pollution Causes, Effects, and Solutions

Online Library Air Pollution Causes Effects And Solutions Essay

One of the main effects of air pollution is speeding up global warming. The harmful gases such as carbon monoxide and other greenhouse gases form a kind of blanket in our atmosphere. This blanket traps a lot of the solar rays from leaving our atmosphere. The heat trapped then causes a rise in temperatures all around the world.
