An injection molding process for making auto bumpers leaves an average of 1.3 visual defects per bumper prior to painting. Let Y and Z be the numbers of visual defects on (respectively) the next two bumpers produced. Use an appropriate probability distribution and evaluate the following:

Solved: An injection molding process for making auto ...

Racecar Engineering goes back to basics to look at the function of diffusers. Given the current controversy over the design of the Brawn GP, Toyota and Williams diffusers Racecar Engineering decided it was time to return to the basics of racecar aerodynamics. This will allow us to better understand exactly why their designs are more effective.
