Sample questions asked in the 8th edition of Fundamentals of Futures and Options Markets: The standard deviation of monthly changes in the spot price of live cattle is (in cents per pound) 1.2. The standard deviation of monthly changes in the futures price of live cattle for the closest contract is 1.4.

Fundamentals of Futures and Options Markets 8th edition ...

The futures price of a stock index is always less than the expected future value of the index. This follows from Section 5.14 and the fact that the index has positive systematic risk. For an alternative argument, let r be the expected return required by investors on the index so that $E(S_T) = S_0 e^{rT}$.
