Narrative Theory: Core Concepts and Critical Debates ...

Narrative Therapy: Key Concepts. Narrative therapy, emerging since the 1980s, has been defined as "a postmodern-feminist-constructivist approach that entails the co-construction of real, imagined, or possible stories of the past, present, or future" (Mascher, 2002, p. 58). The shift from problematic stories to more adaptive ones leads to greater empowerment and enables clients to more successfully manage their lives (Seligman, 2006).

1 Approaches to narrative study that fall under the heading of cognitive narratology share a focus on the mental states, capacities, and dispositions that provide grounds for—or, conversely, are grounded in—narrative experiences. This definition highlights two broad questions as centrally relevant for research on the nexus of narrative and mind: (1) How do stories across media interlock with interpreters' mental states and processes, thus giving rise to narrative experiences?;
